

Action Plan — Olive Abasta

ValuSignal 2026 · Speaker Relations & Student Outreach

Prepared by Eunice · Week of June 24, 2026

Hi Olive — here's a consolidated plan so everything's in one place. **Priority 1** is the big one Hansel wants us to win. Let's sync this week so I can hand you the Apollo access.

PRIORITY 1 — University & Student Outreach (10 largest US colleges)

Goal: Get ValuSignal 2026 in front of as many students as possible. Career Launchpad is now **FREE**, which removes the biggest barrier — lead with that.

Actions:

- 1. Apollo data** — I'll give you access to our ~2,000 unused Apollo credits. Use them to extract decision-maker / department contacts at the 10 target universities.
- 2. Hit every angle** at each institution — don't stop at one contact:
 - Career services offices
 - Real estate clubs / student organizations
 - Business, economics & real estate professors
 - Department deans and chairs
 - Department newsletters, boards, online resources
- 3. Lead with "free"** — use the updated outreach copy (the shorter versions I sent). Make clear the Career Launchpad track is now free for students.
- 4. Don't miss anybody** — work each university until the contact list is fully exhausted.
- 5. Track progress** — log outreach + any student registrations so we can report status to Hansel.

*Note: Free student tickets are **limited access** (Career Launchpad sessions only, not the full conference). Keep that accurate in your messaging.*

Timeline: Begin this week. Eunice + Olive sync to hand off Apollo access.

PRIORITY 2 — Tech Demo Speaker Outreach

Contact	Action	Status
Ruby	Send one final tech-demo offer. If no reply → close it out and move on.	Scheduled
Kessley Miller Cotality / a la mode	Invite to Tech Demo track + sponsorship (mention Brandon Morris & Gynell Vestal referred us).	Scheduled
J. Marshall Hunt AppraisalPilot	Finalize the 1-hr demo session overview directly with Marshall (cleared to do without Hansel).	In progress

PRIORITY 3 — Speaker Lineup Adjustments

Michelle Bradley + John Dingeman — propose a **partnership / panel**, topic focused on **AI & appraising** (Michelle prefers a shared format over solo simulative).

ONGOING — Coordination

- **Affiliate (Rewardful) invites** — independent speakers only. Include **Roy Meyer**. Exclude major-corp people (Fannie Mae, Appraisal Foundation, etc.).
- **Speaker portal** — help upload standardized presentation templates & branded backgrounds so speakers stay on-brand.
- **Free student tickets** — once live, update the contacts who asked about free access.

Questions or blockers → **put them on the task tracker**. Thanks, Olive — you've been doing a great job keeping speakers on track. Let's get those universities locked down.
